PROFESSIONAL SUMMARY

Founder of Stolen Hours Software and full-stack developer (SAS Institute background) who designs, builds, and ships web applications end-to-end — MERN, React, Render — and leads FedEx dispatch across four stations.

EXPERIENCE

Founder and CEO — Stolen Hours Software · Raleigh, NC — **2026 – PRESENT**

- Founded a family software studio — every product designed, built, and shipped after bedtime.
- Shipped: The Fridge Door, Bubble Tracks (635 songs), Brewery Compass (259 breweries), War Room (offline PWA).
- Own the full cycle end-to-end — design, MERN/React development, testing, Render deployment, upkeep.

CXPC Dispatch — FedEx · Knightdale, NC — **2025 – PRESENT**

- Provide dispatch coverage across four stations, including a legacy Express station.
- Create, modify, and move pickups to the appropriate routes in real time.
- Monitor on-road routes continuously to guarantee pickup reliability.
- End-of-day reports; partner with management on route efficiency.

Courier — FedEx · Raleigh, NC — **2022 – 2025**

- Operated company vehicles for courteous, efficient package delivery and pickup across assigned routes.
- Checked shipments for conformance to FedEx features of service.
- Provided route coverage and customer service across the station's service area.

Senior Associate Solutions Advisor — SAS Institute · Cary, NC — **2020 – 2022**

- Built custom controls for SAS Visual Investigator using JavaScript, Angular, and PostgreSQL.
- Collaborated with the R&D team in Scotland; worked in GitLab, VS Code, and Jira.
- Published five Virtual Learning Environment courses — custom controls, REST APIs, web components, JavaScript.

Bar Manager / Beverage Director — Midtown Grille · Raleigh, NC — **2013 – 2020**

- Managed the wine program, purchasing from 12–15 distributors and updating the by-the-glass list.
- Closed nightly, reconciled cash, ran monthly alcohol inventory, and consistently met alcohol-cost goals.
